Christmas Dinner – Fred Singleton raised the question, where & when. We usually attend same place at least twice, and made the date last year to be the last Sunday in November, so as not to clash with a busy season in December. After discussion –

Moved Jeff Mills .. Sec. Barry Bristow-Stagg .. that Fitzgeralds, Northam, be booked for the Annual Christmas Luncheon, to be held on Sunday November 27th.
 Carried

Beverley Show 20th Aug – Jeff Mills reminded us of this date. Will once again be in next Newsletter, and we can advise that at least 6 members will attend, maybe more. Not sure re Avondale Machinery, maybe less.

Reports

Registrar's Report: Andrew Wells. Concessional Registrar

The Club has 158 vehicles on concessional license including 8 new ones this year.

The scrutineers did a good job again this year and I have only a couple of owners to chase up and then send the list of vehicles into the DoT and the CMC.

The DoT have indicated they want to make a number of changes to all concessional licensing, not just our code 404.

The worst of these is to issue special licence plates for concessional vehicles. The CMC have opposed this and are negotiating with the DoT. We hope commonsense will prevail.

Website Report: Fred Singleton.

All is stable on the website as per last years status.

There may be a change in charges and all that goes with it, but staying the same at the moment, still with Westnet. The present support person will let us know of any changes.

As Computers can do, it died, may have to change and update.

Moved Jeff Mills ... Seconded Peter Cox ... that the Registrar and Website reports be accepted. Carried.

President's Report: Stan Eastwood

Another year has passed being our 26th since Foundation. Our club has been quite busy and has attended a number of events during this year. To highlight some of these I reflect on some of the more memorable ones, such as our weekend away when we visited the Bindoon museum and then drove to John Ivey's Rambler Car collection. Over nighting at the Gingin Caravan park we drove next day to Guilderton for their show joining with the Austin Car Club. A great weekend for all who attended. A visit to Venn's Emu Farm and morning tea followed by lunch at Bruce Sharman's and inspection of his workshop. We then travelled to the Toodyay Bee Farm for afternoon tea... A day out when we visited Ted Leagus's collection followed by lunch at the Grass Valley Tavern. Having enjoyed an excellent lunch we travelled to Bert and Angie Hayes for afternoon tea and to inspect his well presented collection. Another great day out. Our visit to the Corrigin Vintage and Classic day was another outing different to what we have been involved in in the past.

On the National Motoring Day our club was involved in a visit to the Cunderdin Pumping Station Museum where we enjoyed morning tea. The members then drove to Wyalkatchem to visit their museum and have lunch. After inspecting the exhibits at the museum we made our way home via Dowerin and Goomalling. This was an amazingly

extensive exhibit which everyone thoroughly enjoyed. Just recently those that attended the annual York Motor Show witnessed a great turnout of just over 200 vehicles and although we nearly perished in the very cold weather I am sure all enjoyed this day out.

Other events attended through out the year were the Moondyne Festival at Toodyay, the Toodyay Agricultural Show, Beverley Show, Coolgardie Show, Merredin Show, Northam's Flying 50 event, the Radio West Poker run and the Swan Hill Historic Agricultural Environmental Festival.

One would have to wonder why the comment was made that the club is not doing anything when we have been involved in some 15 events for the year, that averages out at more than one event per month over the year. That comment led to a questionnaire being circulated through our Newsletter asking members what they wanted from the club, what changes were needed or were they generally happy with the Club's operation. From our very large membership of over 200, only 5 replies were received which did not give the Executive committee enough feed back to consider any changes.

Last but not least our Annual Swap Meet that was again a huge success. This event appears to be getting bigger each year and I am sure that we need to look at using another organization to take care of the Admission of our Stall holders and general Public through the gate.

Our annual Christmas luncheon was again well attended. A special thanks to Carmel who has attended our Annual dinner each year and makes her donation to the Club.

One change the members have decided on has been to order two tear drop flags and poles for when we are at events. These are far better than using the banner which is a hassle when finding somewhere to mount it.

Our workshop has been busy with Annual Vehicle Inspections taking place and the maintenance of Club vehicles. The work on the Model A Ford is continuing although it is making fairly slow progress.

On a sad note I report we have lost members of long standing in John Fernihough, Serenity Brinckley, Rex Downie and Isobel Keayes.

In conclusion I must thank all members who assisted during the year in what I consider another successful year for the Club. A special thanks to our Secretary Sylvia and our Treasurer Theo, both who saved us during the year by stepping in when our Secretary and Treasurer resigned.

Thank you all for your assistance during the year.

Stan Eastwood, President.

How Long Have You Owned a Car ?

(Picture on the front cover)

Mr Allen Swift (in the USA) received this 1928 Rolls Royce Piccadilly Roadster from his father, brand new as a graduation gift in 1928.

He drove it up until his death last year at the age of 102 .He donated it o the Springfield museum after his death.It has 170,000 miles on the clock and still runs like a Swiss watch . That averages 2,000 miles per year .

A few days ago I was having some work done at my local garage. A blonde came in and asked for a seven-hundred- ten.

We all looked at each other and another customer asked, 'What is a seven-hundred- ten?'

She replied, 'You know, the little piece in the middle of the engine, I have lost it and need a new one..'

She replied that she did not know exactly what it was, but this piece had always been there.

The mechanic gave her a piece of paper and a pen and asked her to draw what the piece looked like.

She drew a circle and in the middle of it wrote **710**.

He then took her over to a car just like hers which had its hood up and asked 'is there a 710 on this car?'

She pointed and said, 'Of course, its right there.' the mechanic fainted.

If you're not sure what a **710** is see picture below

We have recently had difficulties contacting some members.

Many thanks to those members who have kept their contact numbers up-to-date.

To the other members, it is probably just an oversight, but if you could rectify the matter it would be appreciated.

Many thanks for your co-operation.
